Report on Remedial Course – Problem solving in Physics

Department of Physics conducted Remedial course for slow learners in physics entitled "Problem Solving in Physics". The aim of the course is to provide the basics of mathematics and problem solving techniques to the slow learners in physics. The students who are fail in physics in first semester exam are selected to enroll in this remedial course. The course is designed such that students will understand basic concepts, formulae and will be able to perform better in second semester. The success of course is that, almost all slow learners perform better in second semester examination.

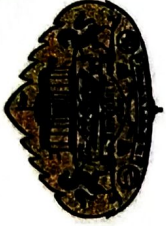

The lectures were conducted in March and April month of 2023 as per schedule and everyday assignments are given in the form of questions and problem from previous year question papers. This helps students to understand how to attempt these questions in examination.

In academic year 2022-23 10 students were enrolled for remedial course and all students successfully completed First year B. Sc. course.

The department is thankful to the Principal and all science faculty departments for kind cooperation in smooth conduct of remedial course.
