T.Y.BSc Botany Excursion tour was organized to Anjaneri Mountain Tracking, Shri Swami Samarth Pharmaceutical Industry and Trimbakeshwar on Saturday 26/11/2022. In the tour 6 students and 1 teaching staff were involved. The spots were visited as per following schedule,

#### Detailed Schedule -

3.30 am	Shri Swami Samarth Pharmaceutical Industry
5.30 am	Shri Swami Samarth Gurupeeth
6.30 pm	Trimbakeshwar Darshan

12.00 pm	At ASC College

The students from Arts, Science and Commerce College Rahata participate in the excursion tour to explore the Herbal Industry, Trimbakeshwar, and appreciate the natural beauty of Anjaneri Hill. The purpose of this visit was to gain practical insights into the herbal manufacturing process, immerse in the cultural and spiritual heritage, and connect with nature.

#### **Anjaneri Hill:**

Our first spot was the Anjaneri Hill, known for its natural beauty and historical importance. We embarked on a nature walk, guided by local experts who shared information about the

biodiversity of the area and the unique flora and fauna present on the hill. The abundance green surroundings, fresh air, and wide views provided a refreshing escape from the city.

As we trekked, we learned about the historical significance of Anjaneri Hill, believed to be the birthplace of Lord Hanuman. The students were interested by the stories and legends associated with the hill, and the hike allowed us to bond and appreciate the wonders of nature.

### **Herbal Industry Visit:**

Our second stop was the Herbal Industry, where we were introduced to the world of herbal products and their production. The visit started with an informative presentation about the significance of herbal products and their importance in promoting health and well-being. We learned about the cultivation of medicinal plants, extraction methods, and the manufacturing process of herbal products.

During the tour, we observed various stages of production, including sorting, cleaning, extraction, and packaging. It was fascinating to see the modern machinery and techniques used to create natural remedies. The experts at the facility patiently answered our questions, providing a comprehensive understanding of the herbal industry operations.

After the educational experience at the Herbal Industry, we headed to the holy town of Trimbakeshwar, famous for its ancient temple dedicated to Lord Shiva. The temple holds great spiritual significance and is renowned for its unique Jyotirlinga, a representation of Lord Shiva. Learned about the religious and cultural practices associated with Trimbakeshwar. The visit was a wonderful opportunity to connect with our heritage and gain insight into the spiritual beliefs of the region.

The industrial visit to the Herbal Industry, Trimbakeshwar, and Anjaneri Hill was a memorable and enriching experience for the students of T.Y. B.Sc Botany. This visit provided a well-rounded learning experience, broadening our horizons and leaving us with a deeper appreciation for the interplay of culture, industry, and nature.

#### Shivneri Fort:

We started our experience early in the morning by visiting Shivneri Fort. It is a special place because a really important warrior named Chhatrapati Shivaji Maharaj was born there. We got to see the big fort walls and cool views from the top. We learned that the fort was made really strong to protect people long ago. It was like a puzzle with secret ways to stay safe. Every Student was amazed by the stories of bravery and strength.

### **Lenyadri:**

After the fort, we went to Lenyadri, which is a hill with special caves and temples. The hill was covered in green, and it felt nice to climb up. In the caves, there was Idol of Ganesha, who is a popular god in our culture. The Students visited these caves to pray and feel peaceful. We climbed together, and it felt like an adventure.

### **Shree Ganesh Plant Nursery, Kunjirwadi:**

Our last stop was the Shree Ganesh Plant Nursery. This place was so different from the others. It was like a garden full of plants and flowers. We met experts who developed various kinds of plant saplings there through the process of tissue culture. They told us how to take care of plants and make them grow.

Mrs. Anuradha Raskar Madam explained the various aspects of plant tissue culture which was situated nearly in half acre. She explained various steps of tissue culture done in their lab. Firstly, we visited aseptic laboratory where all utensil, glassware, media were autoclaved. Further, we visited how inoculation of cell or tissues are done in aseptic condition. This inoculated explant were stored in various racks in different light and temperature condition, which was observed daily by their students. She showed how hardening of saplings is was done in different conditions in poly-house or green -house.

We saw many colorful flowers and different types of plants we had never seen before. It was relaxing to be surrounded by nature after all the walking and climbing. We understood how important it is to take care of our environment.

After completion of visit she delivered a lecture on nursery development. Prof. S.V. Lahare introduced and gave brief note about the nursery. Prof. R. A. Desai gave vote of thanks and had nice refreshment for all staff and students.

The study tour to Shivneri Fort, Lenyadri, and Shree Ganesh Plant Nursery on April 18, 2023, was an amazing experience. We had fun while learning so many new things. Each place taught us something different – about history, beliefs, and nature. We came back with happy memories and a bunch of new knowledge. It was a day well spent with our friends and teachers.

The Department of Physics, Shivaji University, Kolhapur is established in 1962 and had rich tradition of education, research in Physics. The department provides various characterization facilities in the department and as well as in the Central Facilitation centre. Physics Instrumentation Facility Centre (PIFC) was established at the Department of Physics, Shivaji University in the year 2012 to provide characterization facilities for researchers working in science and technology field.

PIFC is supported by the Department of Science and Technology (DST-PURSE, DST-FIST I & II) and University Grants Commission (UGC-DRS SAP I & II, UGC-DRS ASIST, UGC-DSA Phase I & II) programmes, Government of India, New Delhi.

The PIFC houses a variety of major analytical instruments operated and maintained by a group of skilled research scholars working in the department. The important available instruments and facilities are as follows:

1. Scanning Electron Microscope (SEM facility)
2. FT-Raman Spectrometer
3. Brunauer Emmett Teller (BET)
4. Field Emission Scanning Electron Microscope (FE-SEM)
5. FT-IR Spectrometer
6. Electrometer
7. UV-VIS Spectrophotometer
8. Atomic Force Microscope (AFM)
9. Electrochemical Impedance Spectrometer,
10. Solar Simulator, Etc.

**Visit To CFC Centre-** The students also visited Central Characterization Facility centre to study improved characterization techniques like Raman spectroscopy, XRD, SEM, TEM, STM at newly established centre located in premises of Physics department.

**Visit to Warana Milk Factory (Cadbury Factory)-** Students visited Warana milk factory for study of instrumentation used in milk products and production process. Students studied production mechanism of milk, Pascherization, butter production, cheese production, milk powder and shrikhand production.
